WE'RE FOR AMERICA & AMERICANS!

Advance Agent of Prosperity

THE true meaning of 16 to 1, in case of the election of Free-Trader BRYAN, would be sixteen men to one job. Let all of us, who don't want that, help to make it mean sixteen votes for McKINLEY and prosperity to one for BRYAN and hard times.

NO MATTER how sound our money may be, says the Scranton (Pa.) Tribune, it will not conduce to our prosperity so long as its principal mission is to pay the foreign manufacturer for goods that ought to have been manufactured in our own country; so long as the chief avenue of its expenditure points away from instead of toward home. Four years ago our money was not only sound, but it was also active. It paid to American workmen the highest average wage they had ever received; it kept our industries busy turning out the largest production they had ever known; it moved the wheels of commerce in all directions, caused the largest known consumption of the products of our farms and, in short, brought to every legitimate interest in the United States a degree of prosperity without previous parallel. This it did because it was backed by systematic and uniform protection. We need to get back to those favorable conditions. We shall not be prosperous until we do.

CANADA'S FIGHT.

ACTION OF CANADIAN BANKS NO SURPRISE.

There was some talk at the Treasury Department about the action of the Canadian Banks in deciding not to accept our silver certificates except at a discount of 10 per cent.

In the past a considerable amount of United States bills have been circulated beyond the border concurrently with Canadian money. They have been receivable for taxes and have been interchangeable. The present action of the banks of Canada, it is presumed, is the result of a fear that this country may be forced to a silver basis.

Treasury officials called attention to the fact that in their refusal to accept our silver the Canadian Banks were simply exercising a discrimination which we exercise, as our banks will not accept Canadian or any other foreign silver coin at par. European countries pursue a similar policy. The French franc or the German mark, when it crosses the border, is received at a discount.

Any talk of retaliation by this Government against Canada for the action of her banks is pronounced absurd by the officials of the Treasury Department.

The Third Baptist Church of Owensboro, which is composed of the bolting members of another congregation who followed Rev. Fred D. Hale out, was organized Sunday with over 500 members. Eighteen hundred dollars was raised for a new church building.

NAILED TO HIS CROSS.

Asked if he would support the action of the Democratic National Convention if it should fail to put Free Silver in the platform, William J. Bryan answered:

"SO HELP ME GOD, I WILL DIE IN MY TRACKS BEFORE I WILL SUPPORT IT."

This was in a speech at Jackson, in Mississippi, June 11th, 1895, and was in reply to a direct question by Mr. Brame. Mr. Bryan made a similar declaration at other places. As his friends say they will make a cross his campaign device The Courier-Journal offers them this one.

VALUE OF A SILVER DOLLAR.

IT IS VERY PLAINLY STATED FOR PLAIN PEOPLE.

Philadelphia Times.

In our money system we have two distinct circulating mediums. Coin is money; paper is the representative of money, and any coin issued that does not possess the intrinsic value stamped upon its face, is only money to the extent of its intrinsic value and is the representative of value beyond that. Paper is simply a promise to pay and its value is regulated by the ability of the Government or institution issuing money to redeem it at its face value. The Populists don't seem to care about the value of money. They simply want the Government to stamp the fiat value on coin, paper or some other commodity, and compel the people to accept it without keeping any reserve for a basis of credit. That has been tried in many countries but always with disaster.

As long as the Government is able to maintain and redeem the silver dollar at 100 cents in gold, the intrinsic value of the silver dollar is not of moment. It is not money in that case; it is simply the representative of money as a promise of the Government that thus far has been fully redeemed. If the Government ceased to redeem it, or so strained its credit by the issue of indefinite silver dollars that it could not redeem it, silver would at once go to its intrinsic value, and we would rank with Mexico, Japan, China, India and Central America as a cheap money silver country. Silver even as money would then be a mere commodity, and the Government issuing it would be without credit.

The plain truth is that the silver dollar of today is worth 53 cents, and it is not worth a farthing beyond that excepting as the Government guarantees it for a larger sum. It is not within the power of any Government to legislate value in money. It must be either intrinsically worth what it claims to be, or the Government must redeem it promptly and keep an ample reserve of gold for the purpose.

Greenup county is in the throes of a typhoid fever epidemic. The funeral of Mrs. John Frazier took place yesterday afternoon from the residence with services by the Rev. W. G. Bradford. Deceased was 42 years of age, and her husband and two children survive.

FINANCIAL DEFINITIONS.

PASTE THIS IN YOUR HAT AND LEARN IT BY HEART.

In response to many inquiries as to the meaning of expressions commonly used in the discussion of issues involved in this campaign, THE LEDGER gives the following brief table of terms and equivalents:

FREE COINAGE. The melting and stamping into money, without charge for the service, of all silver bullion sent to the Mints.

SIXTEEN TO ONE. The ratio sought to be maintained by law, according to which sixteen ounces of silver shall equal in value one ounce of gold.

COMMERCIAL RATIO. The ratio of actual value, the rate at which gold and silver can be exchanged. It is now thirty-one ounces of silver to one of gold.

SOUND MONEY. A currency of which every dollar is exchangeable at par with the standard dollar of the country—in this country a gold dollar.

A GOLD STANDARD. The measure of value adopted by the leading Nations of the world as a basis for their currency—the coin (gold) in which all obligations are finally redeemable.

A FIFTY-CENT DOLLAR. One which, owing to the depreciation of silver, is intrinsically worth only this amount, and maintains its face value only by reason of the Government's pledge to keep it at a parity with gold.

My little boy, when two years of age, was taken very ill with bloody flux. I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy, and luckily procured part of a bottle. I carefully read the directions and gave it accordingly. He was very low, but slowly and surely he began to improve, gradually recovered, and is now as stout and strong as ever. I feel sure it saved his life. I never can praise the Remedy half its worth. I am sorry every one in the world does not know how good it is, as I do.—Mrs. Lisa S. Hinson, Grabsaville, Marion Co., Florida. For sale by J. Jas. Wood, Druggist.

"REV." LEMUEL PENROD.

A Vanceburg Paper Tells of This Gentleman's Troubles.

The Vanceburg Sun gives the following account of the "Rev." Lemuel Penrod's case of insanity:

LEMUEL'S THINK-TANK. Lemuel Penrod, who is still confined in our county "trap" has been acting in a manner for the past week which some pronounced insanity. To settle the much disputed question, Mr. Penrod was brought before a Jury Saturday and tried on the charge of insanity. In this case the Jury hung. Penrod was again escorted back to his commodious (?) quarters where he began his ravings again, beating his fists against the bars and scratching and tearing his face. Monday he was again brought before a Jury and again tried on the same charge as before and the Jury found as before, and Penrod was again escorted back to his quarters. He is held on the charge of cutting with intent to kill William Carver, July 4th, at a ball game in Lewis county, and it is thought that possibly this may be the cause for his scriptural utterances. It convicted on this charge it would mean a term at Frankfort, and of course a short term at Lexington would be much preferable to a lengthy one at the former place. However he still raves, and Circuit Court next month may decide which is the proper place for him.
